Professional Summary

Frontend Engineer with experience building scalable and user-friendly web applications using **React, React Native, and TypeScript**. Strong background in **UI/UX design and product thinking**, enabling effective collaboration between design and engineering. Skilled at transforming complex requirements into responsive interfaces, reusable components, and seamless user experiences across web and mobile platforms.

Technical Skills

Languages & Frameworks

TypeScript, JavaScript, React, React Native, Node.js, Flutter, Tailwind.

Frontend Development

Component Architecture, Responsive Design, State Management, API Integration, UI Implementation from Figma

Backend & Databases

Firebase, Firestore, SQL, Node.js, REST APIs

Tools & Platforms

Git, GitHub, WordPress, Figma, Firebase Authentication, Storybook

EXPERIENCE

Freelance Frontend Engineering

Remote | 2023 – Present

Responsive & Performance Optimization

- Build scalable web applications using **React, TypeScript**, and modern **JavaScript**.

- Develop reusable components and maintain clean frontend architecture.
- Create responsive and accessible interfaces optimized for mobile and desktop devices.
- Improve application performance through efficient component design and state management.

API & Backend Integration

- **Integrate REST APIs, Firebase services,** and authentication systems into frontend applications.

Raba — Fintech Company

Lagos, Nigeria

Remote | 2024 – 2026

Product Designer

UX Research & Product Discovery

- Conduct **UX research** to understand user behavior, pain points, and product opportunities.
- Translate research insights into user flows, wireframes, and product improvements.
- Work with stakeholders to define user problems and prioritize product features.

User Interface & Interaction Design

- Design intuitive fintech interfaces including **wallet dashboards, payment flows, and transaction experiences.**
- Create high-fidelity UI designs and interactive **prototypes using Figma.**
- Focus on usability, accessibility, and smooth interaction patterns.

Design Systems & Collaboration

- Develop reusable UI components and maintain a **consistent design system** across the product.
- Collaborate closely with developers to ensure accurate implementation of designs.

Product Thinking

- Align design decisions with business goals and user needs.
- Improve onboarding flows and financial product experiences through iterative design.

Project Portfolio

- **AI Study Dashboard:** Designed and built a scalable AI-powered study dashboard using **Figma, React, Firebase, and Tailwind** for managing study resources and tracking learning progress.
- **RabaPay App (Fintech):** Designed mobile fintech experiences and implemented wallet dashboards and payment flows using **Figma and React Native**.
- **E-Commerce Platform (Web):** Developed a scalable e-commerce website using **WordPress** with product listings, category navigation, and checkout functionality.
- **Recipe Mobile App (FoodTech):** Built a mobile recipe application using **Flutter** and **REST APIs** to fetch dynamic recipe data and display detailed cooking instructions.

Education

Afrihub ICT Institution.

Abuja, Nigeria

National Diploma(ND) In Computer Software Engineering.

Year: 2021-2023
